Choosing Your Shear

Double Bow Shear

The most popular model for shearing. Gives the softest squeeze. Perfect for fine wool / clean fleeces.

Regulator Bow

Allows firmness of squeeze to be adjusted between double and single bow levels – to adapt to differing fleece condition.

Single Bow

Excellent multi-purpose shear and the most popular model for dagging. Slightly firmer squeeze offers greater resistance to blade separation. Ideal for coarser or greasy fleeces.

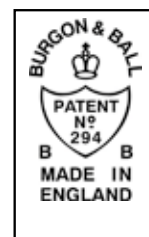

Incurved Bow

The firmest squeeze – offers the greatest resistance to blade separation – for shearing matted, coarse or dirty fleeces.

Authenticity

Burgon & Ball Sheep Shears are the ONLY Shears made in the UK - all Burgon & Ball shears carry this patent logo.
